Report- workshop on Google Apps for Education and Learning

Date-26/04/2019

Organized by: Department of History

Faculty Member: Ratna Paul, Mahmudul Hossain, Amit Sharma, Sumon Roy

The department of History of N.B.S. Mahavidyalaya is going to organize a One-Day Workshop on Google Apps for Education and Learning 26th April, 2019 in the smart class room at 11:00 AM.

OBJECTIVES OF THE PROGRAM:

Collaboration: Students can work together on projects and share information.

Streamlining instruction: Teachers can use the tools to prepare and present learning materials online and offline.

Keeping learning safe: The apps can help keep learning safe.

Promoting creativity: The apps can help students be more creative in their learning.

Developing social and technical skills: Students can develop new skills through their use of the apps.

Flexibility: Because the apps save to the cloud, students and teachers can work from any device with an internet connection.

Some of the tools included in Google Apps for Education are:

Google Classroom, Google Meet, Google Docs, Google Forms, Google Chat, and Google Sheets etc.

OUTCOMES OF THE PROGRAM:

Google Apps have been found to have several effects on the education system.

Firstly, the use of Google Suite for Education, including Google Classroom, Google Forms, and Google Meet, has been shown to be effective in distance learning, making it easier for teachers to manage online learning activities and for students to study at home.

Secondly, the employment of Google Apps in education has a clear impact on students' achievement, as it contributes to achieving learning goals, increasing communication between faculty members and students, and developing new social and technical skills.

Furthermore, utilizing Google Apps in the digital literacy era allows for the preparation and presentation of learning materials online and offline, making them easily accessible to students and promoting academic creativity.

Finally, the use of Google Apps as a personal learning environment in the university context has been found to have positive effects on collaborative learning, with subjective norms and social image playing important roles in the intention to use Google Apps.

Ade

SUMMARY OF THE PROGRAM:

One-Day seminar was organized on 26th April 2019 within the college campus in Smart Classroom. After a brief introduction the resource person first interact with the participants in a very lively manner. After that the resource person explains why Google Applications is important in present day education system and how these tools can help the students to be more creative in their learning. He had also focused on cons of the use of Google workspace.

The resource person also demonstrated the use of few Google applications. All the participants were also actively involved in hands on practices at the end of Workshop.

Finally, the program ends with the vote of thanks to the resource person and especially to the participants for their energy and active participation on the whole day which was given by Mr. Mahmudul Hossain & Ratna Paul Assistant Professor, and Department of History.
